

## Stamped Designs March 2021 Christmas Class

### Merry Christmas Card

Copic markers used: YG63/67, E74, R59

1. Color the mistletoe piece with the Copic markers listed or the coloring medium of your choice.
2. Layer the white felt card to the brown card. Attach the mistletoe and the Merry Christmas words with wet glue.
3. Attach the piece to the base card with foam dots.

### Peace Card

Copic markers used: YG63/67, E74

1. Color the mistletoe section of the card with the Copic markers listed or the coloring medium of your choice. To help keep the line straight along the edge of the card, place the sticky side of a Post-It note along the edge to keep the line straight.
2. On the  $\frac{1}{4}$  sheet of white cardstock, attach the red dotted strip  $\frac{1}{4}$ " from the left edge of the card. Put  $\frac{1}{2}$ " paper back tape (such as Scor-Tape, Scrappy Tape, etc.) on the inside edge of the small flap near the fold on the base card. Remove the paper backer and open the "card." Slide the  $\frac{1}{4}$ -sheet with the red dot paper facing up and slide to the fold.
3. Carefully "close" the card so that the adhesive adheres to the  $\frac{1}{4}$ -sheet. Next attach the smaller white strip to the right side of the front of the card, which will leave the red strip and mistletoe piece showing.
4. Apply a little wet glue to the back of the mistletoe piece along the upper part of the stem and attach to the red.
5. Attach the green peace words to the gold shadow piece with wet glue, then attach to the white part of the card with wet glue as shown.

## Stamped Designs March 2021 Christmas Class

### Merriest Christmas Wishes Card

Copic markers used: YG63/67, R59, E74

1. Trim off the large upper leaf on one of the mistletoe pieces. Color the mistletoe and berries pieces with the Copic markers listed or the coloring medium of your choice.
2. Layer the two pieces of mistletoe together and attach at the end with wet glue. Then attach the winter berries piece to the top with wet glue. Allow to dry for a few minutes.
3. Attach the mistletoe piece to the gold frame with wet glue. When the glue dries, carefully trim the extra out the outside of the gold frame.
4. Attach the mistletoe and frame piece to the piece of the natural felt card with wet glue.
5. Attach the “Merriest Christmas Wishes” word piece to the bottom of the piece with wet glue.
6. Layer the piece to the front of the base card.
