

Stamped Designs Rustic Butterflies Class

Butterflies with background paper: These butterflies do not come with a background matching die. To create the layered butterflies, apply wet glue lightly to the back of the black die cut – trying to stay away from the outer edge of the edges of the cut out. Then take scissors and fussy cut around. If you did not get the glue to the edge, you can slide the scissors under the black and trim smaller than it. Then attach the body piece to the center with wet glue.

You Make Me Smile Card

1. Assemble the 3 butterflies as described above.
2. Layer the beige card to the black card, then to the front of the base card. Arrange the 3 black skinny frames on the piece to the correct locations and glue down one at a time.
3. Attach the butterflies as shown with wet glue.

Thinking of You Card

1. Layer the floral paper to the black card. Apply adhesive to the back and wrap the green ribbon bow around the piece as shown, attaching in the back. Attach to card.
2. Attach the butterfly body to the wings with wet glue and attach as shown.
3. Attach the words as shown.

Wish You Were Here Card
